

WCSCD Youth Board Information and Activities

Conservation is very important throughout our world today. By joining the Washington County Soil Conservation District Youth Board you can help promote conservation in our community by participating in local activities, informing others, and becoming more aware of conservation issues. We have some exciting and fun activities planned for this year that can help local organizations, farmers, and landowners in our community. The events and activities members participate in can be helpful in preparing you for college and other extra curricular activities, while helping you gain valuable knowledge along the way. If you are interested in joining the Washington County Youth Board, please fill out the application provided. Thank you for your time and attention and we hope to hear from you soon!

By participating on the Youth Board, you will have the opportunity to help out with conservation field days and many other events.

Youth Board members dress as Ruby Raindrop and Sammy Soil @ Field Day every year and help make presentations.

The District has a booth at the Appalachian Fairgrounds each year. Youth board members can help man the booth, give out information, and candy to children.

The Youth Board has a tree sale each spring to raise money for activities and projects.

Youth Board Members will have the opportunity to travel to the Tennessee Association of Conservation Districts Convention to represent Washington County.

The Enviroscope model is a great way to show sources of pollution. You may have seen this model at elementary schools.

Becoming a Youth Board member will give you the opportunity to explore your own ideas about conservation.
